

Herrington on the Bay, Eco-Lifestyle Event Design and Catering offers an exotic escape for special events and relaxing retreats. Noted for lushly landscaped lawns with clear views of the Chesapeake Bay, miles of natural marshes inhabited by native wildlife, 600+ acres of preserved wooded walking trails, quaint waterfront Inn accommodations, private beaches, and phenomenal sunrises and sunsets. Herrington is the perfect “green” setting for all occasions!

Some highlights of Herrington on the Bay:

- **LOCATION:** Herrington on the Bay is located at the Most Environmentally Sensitive Marina, Herrington Harbour South, Rose Haven Maryland, as awarded by the National Marine Manufacturers Association in 1999 as well as the Boating Industry Magazine, 2006. To see more: <http://www.herringtonharbour.com/welcd.htm>
- **RECYCLING:** Participates in Anne Arundel County’s Recycling Program.
- **CULINARY VISION:** Herrington’s Chefs are committed to offer the best in Sustainable Chesapeake Cuisine.
 - Purchase products from Maryland and regional farmers, watermen, and vendors who offer sustainably raised and harvested produce, beef, oysters, crabmeat, shrimp, fish, eggs, and more.
 - Bake all breads and desserts in-house with organic and natural ingredients.
 - Organic herbs are grown on-site, and used in food preparation.
 - Chesapeake Roasters coffee is served, an eco-friendly, local roaster.
 - The wine and beer lists include sustainable and organic options.
 - Reverse Osmosis Filtered water is offered and proceeds benefit the Chesapeake Bay Trust.
- **NO STYROFOAM** The catering business uses cornstarch-based plastic ware or biodegradable and/or recyclable plasticwares when china is not an option.
- **STAFF:** Herrington on the Bay recruits employees who support the Eco-Lifestyle vision.
- **OFFICE SUPPLIES:** All printer cartridges and copier paper is recycled. All “new” printer cartridges are purchased from: Chesapeake Cartridge Company, which offers a remanufactured, 100% recycled, product which is produced in Annapolis.
- **TRANSPORTATION:** An electric golf cart and passenger trailer is used to transport wedding guests on site.
- **CLEANING PRODUCTS:** Bay Safe™ citrus-based cleaning products are used exclusively in the catering business, and at Herrington Harbour Inn.

- HERRINGTON HARBOUR INN: The Inn utilizes the Project Planet program, encouraging hotel guests to conserve water, electricity, and gas usage.
- COMMUNITY: Herrington on the Bay hosts and sponsors Eco-Day, in October each year, an Eco-Lifestyle Festival open to the public, featuring eco-friendly speakers, services, recycling bins, composting, kids activities and more.
- ECO-FRIENDLY BUILDINGS:
 - Power conserving lightbulbs are used.
 - Historic buildings have been revitalized, not re-built
 - A tankless water heater was purchased by Herrington on the Bay in 2004
 - Ceiling tiles with low VOC (volatile organic compounds) replaced old ceiling tiles in the Historic Yacht Club event building in 2008
 - Motion sensed lights are used in all restrooms
 - For future construction projects, LEED certification will be considered.
