

Beachfront Lodging

## *Eco Lifestyle Resort*

Catered Events

Herrington Harbour is nestled on the western shore in southern Anne Arundel County, less than an hour drive from Annapolis, Baltimore or Washington, DC. The resort offers beachfront lodging and meeting facilities in one of the most picturesque locations on the Bay. It is an environment like no other.

On Herring Bay, living in harmony with our natural surrounds is more than a tradition. Herrington Harbour's award-winning ecological practices serve as a template for others who are working to conserve our natural resources.

Herring Bay provides the best pleasure-boating facilities Maryland has to offer, and some of the most beautifully cared for waterways. Thousands visit every year for the complete Chesapeake experience; where Mallards mosey down the streets of our quiet neighborhoods, and Great Blue Herons fish the many coves and creeks along our shores.

The Herring Bay villages are off the beaten path, yet they remain easily accessible by major roads. Our restaurants, shops and marinas range from quaint little spots that may remind you of a Norman Rockwell scene, to world-class, fully featured operations that let you enjoy this favored region in absolute modernity. The choice is yours.

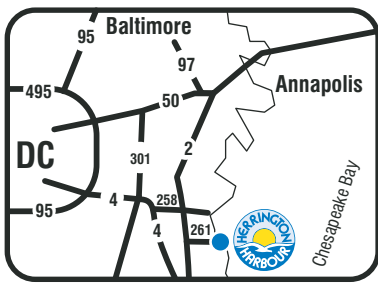

Beachfront lodging at Herrington Harbour Inn features 36 unique rooms, ranging from private patio hot tub rooms to a variety of suites. Enjoy a complimentary continental breakfast each morning while relaxing in our Blue Heron Sunroom, with delectable home baked goods provided by Herrington on the Bay's own Pastry Chef.

Our meeting and event facilities, catered and operated by Herrington on the Bay, offer breathtaking views in an atmosphere unparalleled on the Bay.

As a vital part of the Herrington Harbour Eco Lifestyle Resort, Herrington on the Bay has a culinary mission; to specialize in sustainable Chesapeake cuisine, while providing authentic global cuisine for guests who want to share traditional fare with their party. The chefs are inspired to incorporate locally grown produce, locally harvested seafood, and organic, natural, and sustainable raw products from their suppliers. The result is the best tasting, most healthful, highest quality cuisine, served in an elegant manner.

Visit Herrington Harbour Eco Lifestyle Resort today.  
We look forward to serving you.
